

# CSA1507-Cloud computing and big data analytics

## Experiment-3

**Aim:** Create a simple cloud software application for Flight Reservation System using any Cloud Service Provider to demonstrate SaaS include the necessary fields such as one way, round trip, From, to, Departure, Departure, Travelers & Class, Fare Type, International and Domestic Flights etc..

**Procedure:**

1. First, create a project named Cloud-Based Flight Reservation System.
2. Select a cloud service provider such as AWS to host the application.
3. Design a simple web page using HTML, CSS, and JavaScript.
4. Add options for One Way and Round Trip.
5. Add the From field to enter the departure city or airport.
6. Add the To field to enter the destination city or airport.
7. Add the Departure Date field to select the travel date.
8. For Round Trip, add a Return Date field to select the return date.
9. Add the Travelers & Class field to select the number of passengers and travel class.
10. Add a Fare Type field such as Economy, Premium Economy, or Business.
11. Add options to select Domestic Flights or International Flights.

**Input:**

flight

Development

FLI

flight

Flights

flight

All Flights

flight

## Output:

|  | Name ▾        | From ▾    | To ▾      | Class ▾      | Trip type ▾  |
|--|---------------|-----------|-----------|--------------|--------------|
|  | Laddu         | chennai   | hyderabad | second class | internatinal |
|  | Karthik Reddy | Hyderabad | Chennai   | First class  | Forenin toor |

|               |               |
|---------------|---------------|
| Name          | Karthik Reddy |
| From          | Hyderabad     |
| To            | Chennai       |
| Class         | First class   |
| Trip type     | Forenin toor  |
| From location | suryapet      |
| To location   | airport       |

## Result:

The Cloud-Based Flight Reservation System was successfully designed and deployed using a cloud service provider. The system allows users to search and reserve Domestic and International flights by selecting One Way or Round Trip, From, To, Departure Date, Return Date, Travelers & Class, and Fare Type.
